

# Pacific Undergraduate Research Conference

## Poster Guidelines

The posters will be attached to a standing display board as part of a tri-fold kiosk. Velcro will be provided for attaching your poster to the board.

The dimensions of each side of the kiosk are as follows:

The following **MUST** be included on your poster:

- Title
- Full name of all authors
- Abstract (as submitted and included in the program)

Your poster must clearly communicate the research so that it is **understandable to someone from another discipline**. It should be self-explanatory and not require supplementary information from the author. In other words, if someone were to view the poster when you weren't there, they would be able to understand your project.

Some suggestions:

- Make the poster visually appealing.
- Make the text large enough to be read from 5 feet away. (use at least **18-point type**)
- Design your poster with an obvious flow that guides the viewer through your information.

**IMPORTANT NOTE:** if you plan to print your poster on a single sheet, using a wide-format printer, do not wait until the last minute. Contact the CUBE in the library ahead of time.
