

STEP 1. Click on the gear on the far right corner of your browser's window and access the Internet Explorer browser Settings.

STEP 2. Select Compatibility View settings.

- Print
- File
- Zoom (100%)
- Safety
- Add site to Start menu
- View downloads Ctrl+J
- Manage add-ons
- F12 Developer Tools
- Go to pinned sites
- Compatibility View settings**
- Report website problems
- Internet options
- About Internet Explorer

STEP 3. UNCHECK the Display intranet sites in Compatibility View box.

STEP 4. Close the window.

FINAL STEP. Once the dialog box is closed, click on the dashboard link again to refresh the page.
