[American Medical Student Association – AMSA Academy](#)

AMSA Academy is a training ground for physician leaders, established by and for students. The Academy strives to empower medical students to effect change in medicine. Combining didactic with experiential learning, AMSA Academy courses take students through the core competencies of leadership and project implementation, while building on key principles of important topics in medicine. Each program fosters the value of health care must be patient-centered, effective, efficient, safe, equitable, and timely, as identified by the Institute of Medicine. We see our mission as training physician leaders in order to transform the face of medicine.
