Ten week paid internship at foundation headquarters in Alexandria, Virginia. Rotation through all departments: accounting, communication, conventions and meetings, executive office, government affairs, home health care/long-term care, industry affairs, management institute, NCPA foundation, National Home Infusion Association, professional affairs, and National Institute for Pharmacist Care Outcomes.

[PhRMA Foundation – Pharmaceutical Research and Manufacturers of America Foundation Fellowships](#)

Over the past 48 years, the PhRMA Foundation has helped thousands of scientists advance their careers and has inspired new generations to enter biopharmaceutical research. The early-career support provided by the PhRMA Foundation has been a catalyst for our scientists to become leaders in their organizations and fields. Our programs help build a larger pool of highly-trained researchers to meet the growing needs of academic institutions, the government and the research-intensive pharmaceutical industry. The PhRMA Foundation funds scientists at critical points in their research careers to support and reward innovation in disciplines essential to the development of safe and effective medicines. The PhRMA Foundation offers competitive pre and post-doctoral fellowships, sabbatical fellowships, and research starter grants to advance science in pharmacology, toxicology, informatics, pharmaceuticals, and health outcomes. The Foundation also offers a Comparative Effectiveness Research Center of Excellence Award. PhRMA Foundation award recipients will continue to play an instrumental role in substantial achievements in medicine for the benefit of public health and ultimately the patient.
