

CPR Certification Resources

Current certification in Cardiopulmonary Resuscitation (CPR) is needed for the health education requirement to be fully satisfied. CPR training must cover **INFANTS, CHILDREN AND ADULTS**. The course must be an in-person, hands-on course. *Online CPR courses are not acceptable*. The CPR requirement may be satisfied through:

[American Heart Association](#) - Heartsaver Adult & Pediatric CPR

[American Red Cross](#) - Adult, Infant & Child CPR with AED

[Children First CPR & First Aid](#) - Local Adult, Infant, & Child CPR with AED

[Life Saver CPR](#) – Local Adult, Infant & Child CPR with AED

OR through a course arranged by your organization. Upon certification in the course, please scan and email or send a copy of your CPR card that you have signed to the credential office.
