

UNIVERSITY OF THE PACIFIC CIVIL ENGINEERING

CIVIL ENGINEERING AT UNIVERSITY OF THE PACIFIC

The Civil Engineering program is widely known for its practical curriculum, high academic standards and student-centered emphasis. The Civil Engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

DEPARTMENT MISSION

The Department of Civil Engineering seeks to develop graduates who have the knowledge, skills and qualities required for professional licensure, advanced level studies, and practice and leadership in the civil engineering profession.

CIVIL ENGINEERING PROGRAM EDUCATIONAL OBJECTIVES

Within a few years of graduation, graduates of the Civil Engineering program are expected to:

- + Plan, design, evaluate, construct, maintain, operate, analyze, advance, and manage civil engineering systems
- + Pursue professional licensure and certifications
- + Engage in lifelong learning and pursue advanced level studies
- + Demonstrate leadership skills through career advancement and active participation in the civil engineering profession and in the community

COOPERATIVE EDUCATION CURRICULUM COMPONENT

Practical work experience (cooperative education or co-op) is an integral part of civil engineering education at University of the Pacific. All students who are U.S. citizens are required to complete 32 units of co-op, which entails a seven month work period. Consequently, earning a B.S. degree in civil engineering may take longer than four years. Experience gained during co-op gives Pacific civil engineering graduates a significant advantage when they seek employment after graduation.

CIVIL ENGINEERING PROGRAM REQUIREMENTS

Requirements for the degree of Bachelor of Science in Civil Engineering are listed on the reverse side of this flyer. These requirements include a minimum of 120 units in four general areas: civil engineering, engineering science, mathematics and science, and general education.

THE CIVIL ENGINEERING AREAS EMPHASIZED IN THE CURRICULUM ARE:

- + Environmental engineering – design and supervise the construction of systems for water treatment, waste disposal, and for air and water pollution control
- + Geotechnical engineering – design and supervise the construction of building foundations, tunnels, dams, and retaining walls
- + Structural engineering – design and supervise the construction of structures of various forms, including bridges and buildings
- + Water resources engineering – design and supervise the construction of systems for water supply, hydropower, irrigation, drainage, flood control, and navigation

To provide depth in one or more of these areas, students choose four civil engineering elective courses in addition to the core civil engineering curriculum.

CIVIL

REQUIREMENTS AND SAMPLE CURRICULUM FOR THE DEGREE OF BACHELOR OF SCIENCE IN CIVIL ENGINEERING

*EFFECTIVE FALL 2019

1 ST YEAR	FALL	ENGR 10 [1] DEAN'S SEMINAR CIVL 15 [3] CIVIL ENGINEERING GRAPHICS MATH 51 [4] CALCULUS I PACS 1 [4] PACIFIC SEMINAR 1 GE ELECTIVE [3-4] TOTAL UNITS [15-16]
	SPRING	PHYS 53 [5] PHYSICS I MATH 53 [4] CALCULUS II PACS 2 [4] PACIFIC SEMINAR II CIVL 22 [3] (CE ELECTIVE) TOTAL UNITS [16]
2 ND YEAR	FALL	ENGR 20 [3] MECHANICS I (STATICS) ENGR 19 [3] COMP. APPLICATIONS IN ENGR MATH 55 [4] CALCULUS III CHEM 24, 25 OR 27 [4-5] GE ELECTIVE [3-4] TOTAL UNITS [17-18]
	SPRING	CIVL 60 [4] WATER QUALITY ENGR 121 [4] MECHANICS OF MATERIALS ENGR 45 [4] MATERIALS ENGINEERING MATH 57 [4] DIFFERENTIAL EQUATIONS TOTAL UNITS [16]
	SUMMER	EMGT 170 [4] PROJECT DECISION MAKING ENGR 120 [3] MECHANICS II (DYNAMICS) MATH/SCIENCE ELECTIVE [3-4] ENGR 30 [3] ENGR. & COMP. ETHICS IN SOCIETY (GEIIB) GE ELECTIVE [3-4] TOTAL UNITS [16-18]
3 RD YEAR	FALL	CIVL 130/130L [3/1] FLUID MECHANICS I CIVL 132 [4] INTRO TO ENVIRONMENTAL ENGR LIFE/GEO SCIENCE ELECTIVE [3-4] 100-LEVEL SOECS ELECTIVE OR ECPE 41/L [3-4] TOTAL UNITS [14-16]
	SPRING	CIVL 100 [4] INTRO TO STRUCTURAL ENGR CIVL 133 [4] WATER RESOURCES ENGR CIVL 140 [4] INTRO TO GEOTECHNICAL ENGR CIVL ELECTIVE [3-4] ENGR 25 [1] PROFESSIONAL PRACTICE TOTAL UNITS [16-17]
4 TH YEAR	FALL	ENGR 181 [16] CO-OP (SUMMER OF 3RD YEAR) ENGR 182 [16] CO-OP (FALL OF 4TH YEAR) TOTAL CO-OP UNITS [32]
	SPRING	CIVL 180 [4] ENGR SYNTHESIS STRUCTURAL ELECTIVE [4] (CIVIL 164, 165 OR 166) CIVL DESIGN ELECTIVE [4] PACS 3 [3] PACIFIC SEMINAR III TOTAL UNITS [15]

Minimum number of units required = 120 plus 32 units of CO-OP. This schedule presents all course requirements in a concise form. Degree completion time may vary based on units completed prior to enrollment, activities, interests and constraints.

CIVL [45-47 units]
ENGR [26-27 units]
MATH/SCI [31-34 units] (min. 30 units required)
GEN ED [23-26 units]

CIVL ELECTIVES: All Civil Engineering students are required to take a minimum of four courses (12 units min.) of CIVL electives. Of these electives, one must be a structural design course (e.g., CIVL 164, 165 or 166) and another must be a nonstructural course from the design category.

ANALYSIS:
 CIVL 22 GEOMATICS
 CIVL 134 GROUNDWATER
 CIVL 145 ENGINEERING GEOLOGY
 CIVL 160 STRUCTURAL ANALYSIS
 CIVL 163 EARTHQUAKE ENGINEERING
 CIVL 171 WATER AND ENVIRONMENTAL POLICY
 CIVL 173 SUSTAINABLE ENGINEERING
 EMGT 174 PROJECT MANAGEMENT
 CIVL 197 UNDERGRADUATE RESEARCH

DESIGN:
 CIVL 136 DESIGN OF WASTEWATER FACILITIES
 CIVL 138 SOLID WASTE SYSTEMS
 CIVL 141 FOUNDATION DESIGN
 CIVL 150 TRANSPORTATION ENGINEERING
 CIVL 151 HEAVY CONSTRUCTION METHODS
 CIVL 164 STRUCTURAL TIMBER DESIGN
 CIVL 165 STRUCTURAL STEEL DESIGN
 CIVL 166 REINFORCED CONCRETE DESIGN
 CIVL 191 INDEPENDENT STUDY (MAY ALSO BE ANALYSIS)
 CIVL 193 SPECIAL TOPICS (MAY ALSO BE ANALYSIS)

LIFE/GEO SCIENCE ELECTIVES (one required): other electives are subject to departmental approval
 BIOL 35, 41, 51, 61, GESC 41, 51, 53, 102, 148

MATH/SCIENCE ELECTIVES (may include LIFE/GEO SCIENCE ELECTIVES above plus): other electives subject to dept. approval
 CHEM 27, 121, 123, 161, PHYS 55, 57 MATH 37, 39, 72, 110, 130, 131, 141, 145

GEN EDUCATION (GE) AND GE ELECTIVES:
 Civil Engineering students entering Pacific as freshman are required to take the Pacific Seminar series and four GE courses, three of which are electives. Transfer students should discuss GE requirements with an advisor.
